

# Powering Smarter Healthcare

with the Industry's  
Leading Brands

## A Smarter Company

**QuadraMed develops powerful, innovative information technology solutions that enable healthcare providers to deliver better quality care more immediately, effectively and efficiently.**

From clinical to patient information management, from revenue cycle to health information management, QuadraMed delivers practical solutions that increase transparency, profitability, quality and safety in today's care delivery processes.

## Smarter Solutions

**QuadraMed provides the most comprehensive range of innovative, highly installable and user-friendly healthcare information solutions to the acute healthcare market.**

QuadraMed's products span healthcare needs across the entire patient care continuum improving patient safety, cash flow, efficiency and compliance.

### Affinity® Healthcare Information System:

A comprehensive solution that helps hospitals address both revenue cycle and patient safety

management. QuadraMed Affinity, including the industry's next generation Computerized Physician Order Entry (CPOE) system, offers superior functionality, flexibility and scalability, backed by an exceptional implementation record.

**Quantim® Health Information Management Suite:** A total solution for total health information management needs, Quantim enables our customers to optimize their revenue cycle with critical coding, compliance and records management functions — all fully integrated on a single web-native platform for improved workflow with access anywhere, anytime.

1

**Tempus Enterprise-Wide Scheduling:** QuadraMed TempusOne® is the industry's most powerful enterprise-wide scheduling product. It streamlines the patient access process and manages the scheduling needs of healthcare organizations across their enterprise.
